

Data Science Survival Skills

Exercise 11

Your task

Make a Nature-worthy figure of the daily cases of your home country, including the seven days average.

In detail, your figure should:

- Have the data from January 1st, 2021 up to now.
- Shows the raw daily cases as gray bars
- The seven days average should be shown as red line
- Your figure should have the following title
[YOUR FULL NAME] - Daily COVID-19 cases for [YOUR HOME COUNTRY]
- The figure should be uploaded as vector graphics in the PDF format
- The text in a PDF reader should be selectable, i.e. no rendered font
- The figure legend should be on the bottom right side of the figure
- Your axes should be labelled accordingly.

Example for Germany:
